

The American Government's Resurgence Project - Model Counties Initiative – 5.17.2025

My purpose: I am organizing the County Assemblies in the effort to reconstruct our Union States on the soil jurisdiction to ultimately restore “The United States” government.

My gameplan to reconstruct the Union State:

1. Identify a model County in each State who is succeeding at our rescue mission by implementing grassroots outreach activities in their communities or who want to spearhead the rescue mission for their County.
2. Invite these Counties to be a model County for The Resurgence Project in their State.
3. Coordinators from each of the 50 Model Counties will attend, once per month, what will be called a **“Congress-in-Training Session.”** (Any County Assembly member is welcome to attend for now, if or until, we exceed Zoom attendee limits and have to limit the attendance.)
4. At these **“Congress-in-Training Sessions,”** the County Assemblies will:
 - discuss and compare notes on what outreach techniques and strategies have been effective.
 - develop a comradery with and respect for each County and the uniqueness that each of you bring to the table.
 - strategize on how to effectively execute the components of The Resurgence Project in the counties of their Union States.
 - collaborate and combine resources to maximize the individual effort already being expended in outreach missions.
 - engage in these **“Congress-in-Training Session”** to learn how to run a Continental Congress.
 - develop a government body politic, a County Assembly, with structures, operations and public laws that have continuity and substantiveness across each County of its Union State and across “The United States” soil jurisdiction government.
 - direct the organizing of and make the official public announcement of the establishment of the American, self-governing body called the “Town” for each of its “Township” counterparts.
5. Have your Assembly watch this video that goes over this document.

6. The outreach strategy that I have developed will be used by both the State and the Counties which I lay out in the Training Modules. So let your County know that all the Model Counties will be tasked with executing this outreach strategy.

Indicators to be monitored that will determine your County's rate of success:

- Available funding
- Rate of Growth of your County Assembly government volunteers
- Rate of Increase in declared American State Nationals on your County
- Effective conflict resolution techniques and/or protocols
