Transference of Government
Strategic Execution Overview

International Public Notice

Our Commitment to the Declaration
County Tours to "Capitol" CountyElect Sheriff & Coroner –
Seat County/State AssemblyTier
1

2-Tour Strategy

Strategy Task Force Sessions

Congress – Send Criminal
Information and Affidavit to
State Senator and House Rep

Apply **Public Pressure**/State Assemblies tell American Public – We tell Public they should have had this one-fell-swoop list of remedies but don't. This is criminal. Provide Autographed Declaration for each Remedy/Encourage Public to send Criminal Information and Affidavit to Gov, Sec State and County Sheriff of what victimization they have suffered individually and request their remedy and cc a copy to your State Senator and US House Rep and American State Assembly. Assembly will contact them to provide full disclosure of their Territorial Citizenship obligations and correct their status if wish to/Refer them to the International Notice video – preferably on your Assembly website and back linked to main claimyourinheritance.info. **Issue Press Release and Post Mission 2028** throughout Community/ Inform All Government employees they will be guilty too if they don't cooperate.

Tier
2

(Secure the Capitol with help of de facto Constitutional Sheriffs)

Present Service Contracts and Historical documentary evidence to Sec of State, Governor, Attorney General, County Sheriff that proves Employee/Employer Relationship/Disarm Sovereign Citizen Pejorative - Require a Sit-down meeting: PKTF Liaison and Militia

Solicit, enlist and offer to train the County Sheriffs of the de facto to assist - Require a Sit-down meeting: PKTF Liaison/ Militia and County Sheriff/ Report Criminal Info and Treason of Fed and let them know you will be guilty of Misprision and other crimes if fail to provide remedies to Public and America State Nationals

Report Criminal Info and Notice of Treason at Fed level to Sec of State, Governor, Attorn Gen – You will be guilty of Misprision/ Require a Sit-down meeting: PKTF Liaison, County Sheriff, Continental Marshal / Make 2 Demands – Raise Peace Flag on Capitol and Erect "Correct Your Status" Billboard

Contracts

Training

Transfer/Treason

Tier
4

YES, Sit down Conversation

NO Sit down -Guilty of Treason/Misprision of Treason and list other crimes

Transference Negotiations:

- Restitution to all Americans with one-fell-swoop remedies: put action items on a timeline
- **Reeducation program** for Government Employees and County Sheriffs
- **Repurpose Government Agencies into Mediation Agencies**
- Raise Civil Peace Flag and Billboard
- Amnesty for Cooperation
- Bifurcate government buildings into office spaces for Americans and Subcontractors to do their business
- Collapse State-of-State Trust

News Media – We tell Public who's guilty of Treason and Misprision/**Apply Public Pressure** – Provide News Media/Press with their Names AND Names of who capitulates/cooperates

Rinse and Repeat on all Counties and work your way down chain of Command on State/County level Officers and Employees – Start making our list like Military claims to have list of 500,000 Indictments

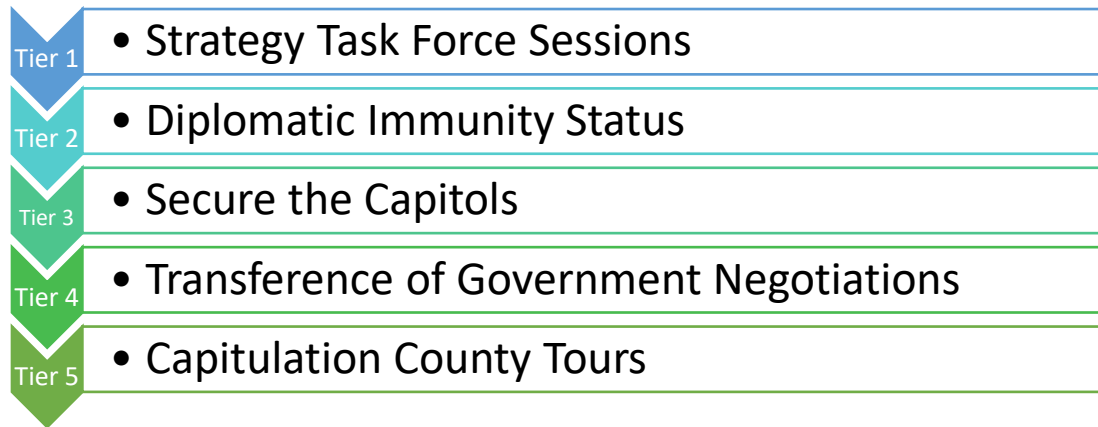

Tier
5

Arrest for Crimes:

- **Warrant for Arrest** of Governor/State Sec of State handed to Military to Carry Out for Treason/Misprision of Treason per their Foreign and Domestic duties
- **Warrant for arrest** of State/County Officer/ Employee to Sheriff hold them for Trial in Common Law County Supreme Court
- Require Resignation
- File on Him/her an Agricultural Lien

“Transference of Government” 5-Tiered Strategic Plan Overview

A 5-Tiered Approach to Phase 3

Tier 1: Strategy Task Force Sessions – In order to accomplish a smooth and peaceful transference of government from our federal United States government services providers and their State and County franchises back to us, their Employers, we as a Federation of 50 united States need to properly, professionally and peacefully negotiate and direct this transference. This requires that the 50 States, or at least the majority of the States, first meet and debate amongst ourselves to agree and write out our plan of execution. In this plan, we will outline how we will address and direct our Employees on the what’s and the how’s this transference will happen; and how we will address and deal with their crimes. The States will need to coordinate and launch this plan with unified action as a Federation in full force for it to be most effective at achieving our desired result, which is “recognition.” This Strategy Task Force will host and facilitate these sessions and invite all State Assemblies to participate and help develop and plan out the execution of each component to our Transference of Government Strategic Plan. The actions of our Head of State and Fiduciary and the International Public Notices will be used as our guide and our position of authority.

Tier 2: Diplomatic Immunity Status – Establish Recognition on Federation-to-Federal level first. The Federation need to be clear about our employee/employer relationship. Establish the fact that there is one Employee which is one Federal Franchise conglomerate (Federal, State, County, City governments). Be clear that as we address US, we are addressing all of them 1. The Federation (Fiduciary, PKTF Directorate, Chief Continental Marshal, etc.?) will have a sit down with the US Attorney General. Address the fact of a contract is in place, (Constitution), confirm that we are the employing party to that Contract, establish the process to enforce the terms of payment for their government services (debt-credit system), establish process for handling the criminal conduct of “their” employees and subcontractors, etc. 2. Correct the Error on their Public Record – Federal, State and Local agencies are required to maintain correct public records according to their laws. US Department of State is responsible for “citizenship” matters. The Federation (Fiduciary, PKTF Directors, Chief Continental Marshal, etc.?) will have a sit down with the US Department of State. Address to US Department of State as their Employers to inform/notice them that they maintain errors on their public records regarding the political status of American State Nationals. We are “non-

citizen Nationals” born on the several states not in a U.S. outlying possession. Provide them the public records of American State Nationals recorded on each State Assembly and require them to correct “citizenship” records in their files. Inform Americans what they will need to submit to US Department of State (2 witness Statements and Credential Card, NO birth certificates, driver licenses and social security numbers and correct way to fill out application) to correct the error or to establish on their (US Department of State) public record the correct diplomatic immunity “citizenship” status to coincide with the public record we provided them on your behalf. American State Nationals will acquire diplomatic immunity recognition as an American State National at the Federal level that can be provided to and recognized by any employees of Federal, State and County de facto governments as notice to them to leave you alone. These passports will serve as “government-issued” ID’s for their purposes in lieu of driver licenses and we will use our credential cards as our government-issued ID’s for our purposes.

Tier 3: Secure the Capitols – We want to strategically establish control over “their” Capitols which in actuality, is our Capitols; and we will give particular, specific attention to our Nation’s capital, Philadelphia, Pennsylvania. To do this, we will elect and train County Sheriffs in the Counties where the State Capitol is located. Also, possibly elect State Coroners in their respective States since they have power over Governors.

PKTF Liaisons and/or Militia Commander prepares the way by establishing the legitimacy of our Employee and Employer relationship. Delivers informational package and/or discusses its contents with County Sheriffs, the Governor, and the State’s Secretary of State. Package would include the contractual agreements, Constitutions, and Historical Background Information proving the American government subcontracted with British Territorials and Roman Municipal; the Federal British Territorial Principals and Municipal Principals colluded in contracts against American government; British Territorials subcontracted with State of State Franchises to provide services in false state of emergency. Disarm the Sovereign Citizen tactic/perjorative by identifying us as the Sovereigns who employed them.

Based on our Fiduciary’s recent Declaration of Land Law and change in the de facto County Sheriff’s capacity, we will solicit, enlist and offer to train the County Sheriffs of the de facto to assist in their constitutional capacities in our transference of government plan in accordance with our Fiduciary’s directives.

The County Sheriff’s, their State Assembly Militia, their State Continental Marshal and their PKTF Liaison will inform and notice these corporate head executives, the County Sheriffs, the Governor, and the State’s Secretary of State, of the treason of their Principal’s on the Federal level and other crimes they may be complicit with if they fail to cooperate and/or capitulate to our peaceful transference of government directives. We will provide the Directives via a Criminal Information and Notice of Treason presentment. Two specific demands will be made at this time: 1. provide the de Facto with a Peace flag and require them to raise it above Old Glory on the capitol building; and 2. require them to erect a billboard in the courtyard of the Capitol’s lawn that directs the Public to correct their political status. The first Counties that we will initiate our first contact across the nation will be the County that has the State Capitol building located in it. We will utilize both positive and negative public pressure to get capitulation from the Governors and Secretaries of State to cause them to issue orders from higher-up

the chain of command to their subordinates to comply. The County Sheriffs, both de facto and de jure, have been empowered to arrest and charge for Treason, Misprison of Treason and other crimes of those who war against the Declaration of Independence by their act of refusal.

Tier 4: Transference of Government Negotiations – A Transference Plan will be drafted in collaboration between the Strategy Task Force, the Nationwide Outreach Think Tank, and the State Assemblies. It will be designed to give remedies to the Public via a one-fell-swoop list of demands; to install our de jure government's presence in our public buildings; to acquire the custody of the State Trusts; and to require that they implement specific features into their U.S. government's policies and databases that will enable American State Nationals to access our rights, remedies and exemptions when interfacing with their corporations. The complete execution of this Transference Plan will take years, of course, but will begin with a one-fell-swoop list of demands, with each demand accompanied by an Autographed Directive by our Fiduciary and any other necessary officers, which we will require to take place immediately. These negotiations to formulate a timeline and deadlines for this role out of these Directives will be initiated in follow-up meetings after the Tier 2: Secure the Capitols interactions.

Tier 5: Capitulation of Government County Tours – After the Transition of Government Strategic Plan is finalized, the combined forces of the County Sheriff's, their State Assembly Militia, their State Continental Marshal and their PKTF Liaison will plan respective follow-up meetings with the Governor and the State's Secretary of State to require their cooperation and/or capitulation to our Directives and one-fell-swoop list of remedies. Subsequently, the State Assemblies will organize a tour of every County across their State to execute the Transference of Government Plan. Corporate Officers who refuse can be arrested and charged with Treason, Misprison of Treason, etc. by County Sheriffs for warring against the Declaration of Independence by their act of refusal.

Logic Behind this Strategic Approach

Lead out with issuing an International Public Notice to the American Public.

Why?

As our American government make our debut onto the public stage as The Federation of States to earn the recognition as such, it is important and most strategic that we lead the conversation with the most pertinent issue: the Crime. My postcard succinctly informs them:

1. A crime has been perpetrated against you
2. Who committed the crime
3. Who we are that is reporting this fact to you
4. What we are doing about it
5. What you need to do about it to get your remedy

Earning recognition, trust and respect from the American public is equally as critical to our success as is earning recognition, trust and respect from our Employees. Without the American Public aware of who we are and who they are and that crime is being perpetrated against them daily, we will continue to push upstream without a paddle in our efforts as an individual American State National who is trying to exercise his/her rights and as a Government who is trying to uphold our Declaration of Independence. Crime is one thing we can get all people to rally against and not have to debate points of law.

(See my “Let Me Introduce Myself” letter and Phase 1 and Phase 2 of The American Government Resurgence Project)

The language of the postcard is consistent with our claim that the only reason for government is to protect the people and their assets. That is the primary message that our actions should project to the American public. Providing them with education is secondary and supplementary. If we can’t demonstrate our credentials and authority as “The American Government,” it renders our educational material and the individual American State National’s actions dismissible and deserving of the label “sovereign citizen.”

Their strategy is to just not recognize us as the American Government and claim they are the only government, then they can get away with claiming we are “stateless sovereign citizens.” What they mean by “sovereign citizen” is that the individual American State National’s claims have no credence because “they” are America’s only government. So, the individual is and can be regarded and treated as “stateless” and as their other descriptors (terrorists, etc.). This gives the label credence in the eyes of their employees and in the eyes of the American public regardless of what the term literally means.

If the Federation of States is not recognized as the ONLY legit government then it makes sense and should be expected that no State Assembly (or County Assembly) is recognized either being members of the Federation. This is how I interpret our predicament and the reason why I think our issue must be handled at the federal level **first** to get a meeting of the minds **first** that there is a Service Contract (Constitution) that establishes that we have an Employer/Employee relationship with them which makes us the ONLY government.

Apply Public Pressure.

Arm the American public with evidence of the crimes. Empower the public with a solid evidentiary case to place them in the offensive position as we encourage them to state their claims of being victimized. Enlist the public as an army of whistleblowers of the crimes that their “Government” is and has perpetrated against them.

To do this, I suggest a one-fell-swoop list of remedies be drafted listing the remedies that they should have had, but don’t. Put this list in the hands of every American and bring this list into their awareness via the Media. Get them to ask themselves the question, “Do I want these things?” and to ask their “Government” the question, “Why don’t I have these things?”

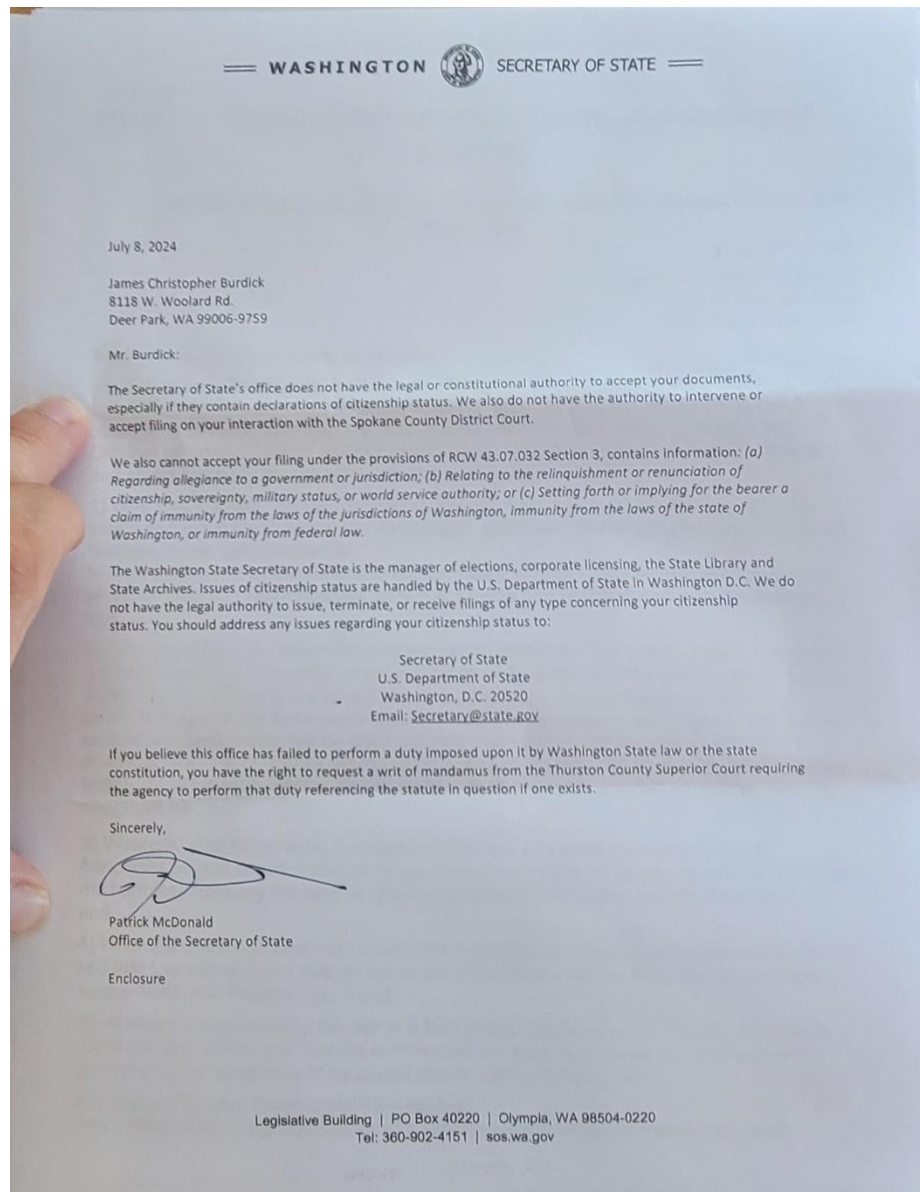

Provide the American Public with an Autographed Declaration for each Remedy on the list (or some type of doc but must have autographs on them to give them credibility) that proves the claim that it is a crime and what is the penalty if and when they present it to their “Government” officials or employees to demand their remedy but it is not granted. Provide them a template and instruct them on how to present their Criminal Information and Affidavit of the crimes that they have been and is being victims of to the appropriate “Government” official and cc their American State Assembly and/or Assembly County Sheriff.

We need our own volunteer reporters and journalists to report the true news of what we are doing and what is happening at the Public Meetings our Assemblies are holding and at the meetings (or attempts to meet) with our Employees. We will feed these reports to the Media to increase the chances of it being

reported correctly and to provide the public with something to compare the Media's message to when they go to do their own research and fact checking.

(See Phase 4 and Phase 5 of The American Governments Resurgence Project.)

MOST EFFECTIVE PHASE 3 STRATEGY: Bring all 3 jurisdictions into the conversation and to the table – International Sea, International Land and National Soil.

Gain Recognition from the Fed level first. It all boils down to "Citizenship." The crime is human trafficking if they refuse to recognize our status.

Get a sit-down conversation between our Fiduciary, PKTF Directorate, Chief Continental Marshall, etc. and the US Secretary of State and US Attorney General for the purpose of getting agreement that the status of American State National is what our “citizenship” status should reflect for passport purposes in their United States National category. This will establish on their “public” record our Diplomatic Immunity Status and disarm sovereign citizen pejorative. This recognition will settle the issue and will be used as leverage to get cooperation from the federal franchise employees/officials on State and County levels. A second question we will seek to settle at this sit-down is our Employee/Employer relationship. We need to bring the receipts --- copies of original documents from our government archives that proves this to be the fact. Investigative journalists will need to see these docs too as the evidence to report accurate news if we are to gain credibility in the eyes of the American public. Maybe start with compiling the evidentiary docs to support Articles: [First Instruction Letter](#) and [World Status Report October 29, 2022](#) and present our Notice of Dstraint to open conversation about Employer/Employee relationship.

Last thing to accomplish at sit-down is identify employee or Officer “citizenship” status. Do they want to correct and record their status or remain foreign citizen? If so, you will inform them they need to register under FARA and you obtain evidence of that at close of the series of interactions.

Secure Control over the Corporate Heads of our Employed Government Services Corporations.

Elect our own County Sheriff and State Coroner.

To get a sit-down conversation with them will be our goal but most challenging. Thus, I suggest a graduated approach to break down the barriers and display assertiveness, professionalism, competence and authority; and also, to render a claim of intimidation as a baseless presumption. In addition, in order to accuse any of them individually of a crime of Treason/Misprision or any crime, we must gather evidence of the individual in the act of the crime. This graduated approach will serve to gather our evidence of a crime being perpetrated by the specific official and/or employee and evidence to prove there is criminal intent after we have informed them. This will establish a solid and legitimate grounds when we address the American Public with our “list of indictments/presentments” of their “Government” officials and “Government” employees that we accuse of Treason/Misprision and other crimes.

Make the distinction that Government Officials (voted in) capitulate and government employees cooperate. Their actions will need to be dealt with differently. Keep in mind that we don’t need them to leave their posts, we need them to correct their status as an American and serve as a guard on their post to make sure their duties as outline in their Constitutions are followed as written and to not overstep their bounds. We need them on our side and still employed by our Subcontractors for this very reason.

First line: PKTF Assembly Liaisons and State Militia Commander - Present Service Contracts and Jurisdictional Divisions of law and Historical documentary evidence to Sec of State, Governor, Attorney General, County Sheriff that proves Employee/Employer Relationship/Disarm Sovereign Citizen Pejorative.

Second line: PKTF Assembly Liaisons and County Assembly Sheriff - Solicit, enlist and offer to train the County Sheriffs of the de facto to assist. Report Criminal Info and Notice of Treason at Fed level to Sec of State, Governor, Attorn Gen – You will be guilty of Treason/Misprision of Treason, plus whatever other crimes we need to list.

Third and final line: PKTF Assembly Liaisons, County Assembly Sheriff, and State Assembly Continental Marshal - Report Criminal Info and Notice of Treason at Fed level to Sec of State, Governor, Attorn Gen – You will be guilty of Treason/Misprision of Treason, plus whatever other crimes we need to list.

Last thing to accomplish at sit-down is identify employee or Officer “citizenship” status. Do they want to correct and record their status or remain foreign citizen. If so, you will inform them that they need to register under FARA and you obtain evidence of that at close of the series of interactions.

Wield our Authority as the ONLY Government AND as their Employers, with confidence and competence.

Make clear our requirement to sit down for a conversation to talk over their cooperation/capitulation to execute our Transference of Government or stand guilty of Treason/Misprision and other crimes.

A Transference Plan will be drafted in collaboration between the Strategy Task Force, the Nationwide Outreach Think Tank, and the State Assemblies and presented to our Employees at a sit-down conversation and negotiated on how the roll out will proceed.

What will our protocol be for enforcing the criminal “indictments/presentments” against those who refuse to cooperate/capitulate in an act of Treason/Misprision of Treason?

Apply Public Pressure.

We tell the American Public who’s guilty of Treason and Misprision and other crimes. Provide News Media/Press with the Names of who capitulates/cooperates and who doesn’t. Again, we must do our own reporting and feed the Media with our news on this to get the facts straight. Need volunteer reporters and journalists.

Indicators that Due Recognition as Employers has been achieved.

The State Assembly can call the Governor or any de facto elected Officer on the phone and they will accept the call and receive our direction and execute it. The State Assembly can send a Directive via mail to the Governor or any de facto elected Officer and they will respond in writing accepting our direction and explaining how they will execute it. Directives/Declarations need to be crafted and used differently than a “Notice.” They are not the same. We must admit this is not how business is conducted between an Employee and Employer and seek primarily to establish a legitimate, business relationship and apply consequences when they are subordinate. We don’t need to argue our laws against their laws or create new ones. We need their codes that are already on their books and in the court decisions to be adhered to. We need the Declaration of Independence to stand as law --- period, point blank.

The American Public recognizes there is a federal U.S. Government and there is an American Government and the use of “sovereign citizens” term is their attempt at an oxymoronic, mind control tactic. We need to get the message across to the American Public that we can’t restore our sovereign government without us first claiming our sovereignty back.

Imagine if our Federation, The United States of America, Unincorporated is recognized as the ONLY government, how easily our State and County Assemblies could get all franchises to fall in line and not get the silent treatment. How different will our everyday lives as American State Nationals and even U.S.

British and Municipal citizens' lives be as we interact with these corporate government service providers?

Legend:

Blue boxes refer to State Assembly's lead responsibility

Black boxes refer to PKTF's lead responsibility

NOTE: There are two elements to this strategy that is not yet included that needs to be discussed to achieve our goal of "recognition:"

1. "Building alliances" domestically and globally.

(See Anna's Video clip about "Recognition" Issue of our fledgling new country: Q/A Podcast clip at Timestamp 1:11:00-1:13:18: <https://www.youtube.com/watch?v=FvRNfMDSKFE&t=4362s>)

Let's dust off those Treaties and rekindle those agreements of "perpetual peace and friendship and amity" and figure out who our real friends are. And let's make some new ones.

2. Identify who is our Military? Define Employer/Employee relationship with U.S. Military? American Armed Forces?

Session 1 replay: <https://www.youtube.com/watch?v=pnmVWokqeTk>
