### **II.**

**Thank you for the engagement this week – Rave, Denise, David, Debra-Ann.**

**My final thoughts:**

**In our government, there are no positions of authority, only job roles.**

**Citizens have an allegiance to their State. Nationals do not.**

**Chairmen of Committees are Nationals, not Citizens and are vetted by State with no background check required.**

### **III.**

**One observation I want to make. It appears to me that the State Assemblies would be the ones responsible for crafting the 2 Declarations and the Criminal Information**

**Notice of Liability to bring forth the 3 Public Laws they have passed. These 3 documents are critical components to “The Teeth” strategy. You County Assemblies and Peacekeepers need to have this conversation with your State Assemblies to determine this.**

### **IV.**

**Project launch is set for July 1, 2025.**
