Wording from the opening of the Executive Order:

The American people have witnessed the previous administration engage in a systematic campaign against

its perceived political opponents, weaponizing the legal force of numerous Federal law enforcement agencies and the Intelligence Community against those perceived political opponents in the form of investigations, prosecutions, civil enforcement actions, and other related actions. These actions appear oriented more toward inflicting political pain than toward pursuing actual justice or legitimate governmental objectives.

Do you count yourself among the American's increasingly concerned about the political divide between the left and the right? Do you look around at all that is going on and just know that something is very wrong? What happened to the America we all thought we lived in?

Do you consider yourself as one who is deeply concerned about matters of freedom and personal property?

There is a battle unfolding today regarding a woman, Anna Maria Riezinger, and her land and home in Alaska. She's been in the freedom fight for decades and has focused her attention on issues of Legal oppression and Lawful issues concerning Americans. She's helped many men and women one by one with court cases and she's also helped large groups of people by her teachings as well as her education on the international matters, informing world leaders about the crimes happening in high circles; about corrupt systems and the root causes and course corrections needed.

Recently Trump signed Executive Order 14147 to End Weaponization of the Federal Government to protect her and others like her who are facing fraudulent actions by agents of the Federal Government, which have in recent decades been used in order to silence and stop the political pressure brought by exposing criminal acts by government systems and agents.

Without immediate help, she faces possible eviction tomorrow, despite the fact she owns her property, owes no property tax and has provided the evidence of this to the Court. This court action began the day after her husband died. On September 2<sup>nd</sup>, less than two weeks ago, a process server brought a summons for a hearing to happen on September 5<sup>th</sup>. Most people recognize a growing problem with homelessness and agree we don't need one more of our older generation being preyed upon by the system, adding to the homeless issue in our day.

Join our efforts to make difference in the life of an American Hero by taking action today. You'll also learn more about how other men and women are seeking to help one another in a unified effort to protect one another when government systems go wrong and end up preying on the very people they have been hired to protect. Take action today!

Anna wants men/women to bombard the Governor and the Alaska Judicial Council with messages so they know the eyes of the world are on them.
