URGENT – Please share far and wide to all Freedom Loving Americans concerned about our County

Do you count yourself among the American's who are increasingly concerned about the political divide between the left and the right? Do you look around at all that is going on and just know that something is very wrong? What happened to the America we all thought we lived in? Is there anything you can do about the injustice of it all? How will the corruption end?

Do you consider yourself as one who is deeply concerned about matters of freedom and personal property? Today, you can take a meaningful action step and learn more by attending a meeting today at 4pm Pacific/5pm Mountain/ 6pm Central/ 7pm Eastern

There is a battle unfolding today regarding a woman and her land/home in Alaska. She's been in the "Freedom Fight" for decades and has focused her attention on issues of Legal oppression and Lawful issues concerning Americans. She's helped many men and women one by one with court cases and she's also helped large groups of people by her teachings as well as educating international principals on the international matters of Law and corruption. Some may have heard of her before; Anna von Reitz.

"The American people have witnessed the Systematic campaign against its perceived political opponents, weaponizing the legal force of numerous Federal law enforcement agencies and the Intelligence Community against those perceived political opponents in the form of investigations, prosecutions, civil enforcement actions, and other related actions. These actions appear oriented more toward inflicting political pain than toward pursuing actual justice or legitimate governmental objectives." Executive Order 14147

Without immediate help, Anna faces possible eviction tomorrow at noon, despite the fact she owns her property, owes no property tax and has provided the evidence of this to the Court. This court action began the day after her husband died. On September 2nd, less than two weeks ago, a process server brought a summons for a hearing to happen on September 5th. Can you believe a widow can be removed from her home only two weeks after her husband has died? And without cause? Unbelievable!

We need to help her delay this Court action so the steps she has taken and will take can prevent this crime of removing her from the family home she owns outright.

Most people recognize a growing problem with homelessness and agree we don't need one more of our older generation being preyed upon by the system, adding to the homeless issue in our day.

Join our informational meeting and find out how you can make a real difference in the life of an American Hero by taking action today.

You'll also learning more about how other men and women are seeking to help one another in a unified effort to protect one another when government systems go wrong and end up preying on the very people they have been hired to protect.

A clear action plan will be presented so we can all stand with this American Hero who has given so much for so many!

Standing as one of the People, in original jurisdiction, Honorable Michael James Dunleavy and Suzanne DiPietro,

The eyes of all 50 states are on Alaska and the Alaska Judicial System to do the right, moral, and constitutional action; The only reason for governments to exist is to protect the people and their property;

The 10th Amendment does not delegate powers to the "State of" governments to place private property of Americans into a State Trust. These entities hold no vested interest in private property, as guaranteed by the Treaty of Versailles (1783), which affirms the sovereignty of the American people:

"To be free sovereign and independent states, that he treats with them as such, and for himself, his heirs and successors, relinquishes all claims to the government, property, and territorial rights of the same and every part thereof";

Neither the Municipal nor the Federal Government has any lawful claim to the private property of Americans; No enumerated power exists within the Constitutions-federal or state-that authorizes the taxation of land, the registration of private property, or its seizure under statutory pretense;

With regard to the foreclosure action on private property lawfully separated from Municipal easements granted for James Clinton Belcher and Anna Maria Riezinger, it is evident that illegal takings are being foisted upon the people by an out-of-control Municipal Government; These actions are repugnant to the Constitution and must be halted immediately;

As affirmed in Marbury v. Madison, any law or action contrary to the Constitution is null and void; Therefore, all proceedings in this matter should be dismissed with prejudice; The private property rights agreed to under the Treaty of Versailles must be recognized and respected;

Be cognizant that the world is watching; The world is watching you.

Limits to Administrative Court Jurisdiction

CRUDEN v. NEALE 2 N.C. 338 (N.C. Super. 1796)

...every man is independent of all laws, except those prescribed by nature. He is not (339) bound by any institutions formed by his fellowmen without his consent.

Proof US citizens are not We the people with constitutionally protected rights and are the persons under Administrative Court Jurisdiction:

TWINING v. STATE OF NEW JERSEY , 211 U.S. 78 (1908)

The right of trial by jury in civil cases, guaranteed by the 7th Amendment, and the right to bear arms, guaranteed by the 2d Amendment , have been distinctly held not to be privileges and immunities of citizens of the United States, guaranteed by the 14th Amendment against abridgment by the states, and in effect the same decision was made in respect of the guaranty against prosecution, except by indictment of a grand jury, contained in the 5th Amendment and in respect of the right to be confronted with witnesses, contained in the 6th Amendment..., and the trial by jury, guaranteed by the 6th Amendment, were not privileges and immunities of citizens of the United States, as those words were used in the 14th Amendment.

Usurpation of jurisdiction is an act of Treason.

United States v. Will, 449 U.S. 200, 216 Note 19 (1980)

In another, not unrelated context, Chief Justice Marshall's exposition in

<https://supreme.justia.com/cases/federal/us/19/264/>, 6 Wheat. 264 (1821), could well have been the explanation of the Rule of Necessity; he wrote that a court

"must take jurisdiction if it should. The judiciary cannot, as the legislature may, avoid a measure because it approaches the confines of the constitution. We cannot pass it by, because it is doubtful. With whatever doubts, with whatever difficulties, a case may be attended, we must decide it if it be brought before us. We have no more right to decline the exercise of jurisdiction which is given than to usurp that which is not given. The one or the other would be treason to the constitution. Questions may occur which we would gladly avoid; but we cannot avoid them."

On this day, 9/14/1914, Francis Scott Key was inspired to write the Star-Spangled Banner after Fort McHenry successfully withstood a British attack.

Go figure – Here we are.

Godspeed, Anna.

Anchorage, Alaska is a unique case—it's not just a city or a borough, but a unified home rule municipality, meaning it operates under a single government structure that combines both city and borough powers. This structure was formalized through its Home Rule Charter, originally adopted in 1975 and amended over time.

 Key Features of Anchorage's Home Rule Charter

- Unified Government: Anchorage merged city and borough functions into one entity, governed by a strong mayor and an elected Assembly.
- Legislative Powers: As a home rule municipality, Anchorage has all legislative powers not prohibited by law or its charter, per Alaska Statute 29.04.010.
- Municipal Utilities: The Charter includes detailed provisions for the operation, management, and disposal of municipal utilities, requiring voter approval for any sale or lease.
- Equal Rights & Ethics: It mandates ordinances against discrimination and outlines conflict-of-interest rules for officials.
- Taxation & Budgeting: The Assembly controls tax procedures, budget approvals, and public hearings, including oversight of the school district budget.

You can read the full text of Anchorage's original Home Rule Charter here (PDF), and explore model charters and other borough examples on Alaska's Department of Commerce site.

The address that the court attempted to send Anna and James notice.

<http://www.paulstramer.net/2025/09/international-public-notice-dangers.html>

1. I made my purpose for attending crystal clear – to collect the prosecutor's bond (there was none, according to the "Judge") and failing that, to demand an end to the claim for lack of a validated (sworn) commercial claim. To be valid, all commercial claims have to be sworn to. Someone (usually a DA or other prosecutor) has to swear and take accountability for making a commercial claim. And they have to post a bond guaranteeing their claim and truthfulness. If they are proven wrong, they lose the bond. The Vermin try to get around this in the Municipal COURTS by claiming that they are merely "administrative" and so, are just piddling around among their own corporations and franchises, and therefore don't have to produce a sworn claim and bond. They only get away with this so long as nobody challenges them on it, and I definitely did.
2. I swore out an official complaint – sealed testimony in the form of an affidavit – not only against the Perps, but against the COURT system.
3. I declined their offer on the record.
4. I sent the Territorial Governor (who is under contract to protect me) a Writ of Assistance Order and didn't spare the reasons why.
5. I sent the Municipal GOVERNOR who is responsible for administrative operations of the Municipal entities the agreement (stipulations) I obtained and published years ago with three federal judges, including Thomas Hogan, the Director of the Administrative Courts, concerning the Five Proofs needed to prove that any public trust exists. That is a contract unopposed and cured and published between me and three Federal Judges.
6. I sent the information to the Alaska Judicial Council – their combined Think Tank which is responsible for the operations of all the courts and the appointments of all the judges and disciplining of all the court personnel.

7. I send the Extinguishment Order on the Territorial "State" operating under a Non-Conforming Constitution -- that's the structure the Territorial Government operates under while it's a Territory. They've been operating "as" a Territory ever since 1959, waiting for us to officially enroll Alaska. We properly took care of that as of October 1st 2020 and notified them, but didn't issue an "Extinguishment Order" ---- which shouldn't actually be necessary, given the Northwest Ordinance --- but now they have the Notice and they have the Order to Quit, which is the Extinguishment of the Territorial "State" and its "presumed" role as our Executors and Trustees.

8. Because the Territorial "State" hired its own British Crown corporations to provide the Municipal Corporation services, once the Territorial "State" is "extinguished", the Municipal structures have to go, too. The Muni Government piggybacked on the Territorial Government like fleas on a dog; when the "dog" goes, so do the DOGS. They have to roll back to their limitations under the Constitutions.

9. Chief Fast Horse is explaining to them exactly why they don't have any jurisdiction over physical land and soil assets.

10. I didn't want to open up this whole can of worms yet. I am not sure that the Assemblies are ready to bear the brunt and responsibility, but they will have to sooner or later.
